

# April Updates

Hohenfels Health Clinic

*Quality Health Care is our Mission!*

## Annual Physical Health Assessment

It's that time of the year again! Your **Periodic Health Assessment (PHA)** is an annual requirement. Please plan ahead of time and make an appointment with your primary care manager. MEDPROS updates on 1 JUL 09; don't wait till the last minute!

## Wellness

Health and wellness is the military standard of managed care for it's Tricare beneficiary population. The goal is disease prevention, health awareness, and disease management. Our focus is on Breast Cancer screening, Asthma management, Diabetes, Cervical cancer screening, colon cancer screening, Pneumovax vaccine, and Chlamydia screening.

## Army Provider-Level Survey

The Office of the Surgeon General (OTSG) mails **APLSS** surveys to a sample of Army patients to ask how our providers and facilities are meeting your needs as patients, related to a single outpatient appointment. Help us serve you better by taking some time to fill out the APLSS survey if received. Your **feedback** means key improvements.

## Dermatology

**Dermatology** is now available right here at the Health Clinic. Call for an appointment to see your primary care manager.

## Records

ETS'ing? Retiring? Leaving the Army? Need a copy of your records? Please allow 5 working days from inquiry for processing and reconciliation. Call Records @ 466-4566 for more information.

## Medical Bills and Reports

If you get sent a Medical Bill from an off-post provider, please bring it to the clinic for timely processing.

## Physical Therapy

In-house physical therapy is offered for all active duty service members. We have appointments available for Tuesdays and Thursdays.
